**UNK = Unknown**

For stocks with an "unknown" overfishing determination, an overfishing definition exists in the FMP but no determination of overfishing has been made relative to that definition.

**Und = Undefined**

For stocks identified as "undefined", no overfishing definition exists in the FMP.

**A dash (-)** denotes that the stock or complex/unit was not assessed as the currently defined stock or complex/unit.

\*\*non-FSSI stock

<sup>1</sup> Before 2003, this stock was listed as two stocks: Georges Bank and Mid-Atlantic. Only Mid-Atlantic had been listed as subject to overfishing.

<sup>2</sup> Before 2003, this stock was listed separately as two stocks, Southern New England and Mid-Atlantic. From 2000-2002, only the Mid-Atlantic portion of the stock was listed as subject to

<sup>3</sup> In 1999, the monkfish stocks were assessed as one stock.

<sup>4</sup> Although this stock was listed as overfishing occurring during the Q2 2006 update, it was a mistake and has been corrected by the NW Region.

<sup>5</sup> Even though this stock is shown to be under the jurisdiction of a single Council and under the management of a single FMP, it is acknowledged that both the Pacific Council and the Western Pacific Council have jurisdiction over this stock, and it is managed under both the West Coast Highly Migratory Species FMP and the Western Pacific Pelagics FMP. The Council indicated here is the lead Council for the purpose of reporting. Prior to 2004, this stock was listed as YFT – Eastern Tropical Pacific and Central Western Pacific stocks (WPFMC jurisdiction).

<sup>6</sup> Before 2003, this stock was not listed as the current complex but as a single stock (pelagic armorhead).

<sup>7</sup> Although stocks were listed individually before 2005, was assessed as a complex.
